CHANGE IS SLIGHT

Wheat Started Out Easy and Declining But Firmed Up Later.

THE CABLES LOWER

Lack of Demand and Continued Increase of the Northwest Receipts.

Duluth Board of Trade, Sept. 1.—The wheat market opened easy this morning, the news from the outside being of a bearish character. The foreign markets were weak, and there was a lack of demand here for wheat. The cables were lower, and the Northwest receipts were heavy. The market was quiet until about 10 o'clock, when it began to firm up. The price of No. 1 hard winter wheat was \$1.05 per bushel. The price of No. 2 hard winter wheat was \$1.00 per bushel. The price of No. 1 soft winter wheat was \$0.95 per bushel. The price of No. 2 soft winter wheat was \$0.90 per bushel. The price of No. 1 hard spring wheat was \$1.10 per bushel. The price of No. 2 hard spring wheat was \$1.05 per bushel. The price of No. 1 soft spring wheat was \$1.00 per bushel. The price of No. 2 soft spring wheat was \$0.95 per bushel. The price of No. 1 hard fall wheat was \$1.15 per bushel. The price of No. 2 hard fall wheat was \$1.10 per bushel. The price of No. 1 soft fall wheat was \$1.05 per bushel. The price of No. 2 soft fall wheat was \$1.00 per bushel.

ON THE CHICAGO BOARD.

Market Easy at Opening But Grows Decidedly Firmer.

Chicago, Sept. 1.—Weakness in foreign markets and a lack of demand made the market easy at opening. However, the market grew decidedly firmer. The price of No. 1 hard winter wheat was \$1.05 per bushel. The price of No. 2 hard winter wheat was \$1.00 per bushel. The price of No. 1 soft winter wheat was \$0.95 per bushel. The price of No. 2 soft winter wheat was \$0.90 per bushel. The price of No. 1 hard spring wheat was \$1.10 per bushel. The price of No. 2 hard spring wheat was \$1.05 per bushel. The price of No. 1 soft spring wheat was \$1.00 per bushel. The price of No. 2 soft spring wheat was \$0.95 per bushel. The price of No. 1 hard fall wheat was \$1.15 per bushel. The price of No. 2 hard fall wheat was \$1.10 per bushel. The price of No. 1 soft fall wheat was \$1.05 per bushel. The price of No. 2 soft fall wheat was \$1.00 per bushel.

MINNEAPOLIS WHEAT.

Minneapolis, Sept. 1.—Wheat, in all grades, was in demand. The market was firm. The price of No. 1 hard winter wheat was \$1.05 per bushel. The price of No. 2 hard winter wheat was \$1.00 per bushel. The price of No. 1 soft winter wheat was \$0.95 per bushel. The price of No. 2 soft winter wheat was \$0.90 per bushel. The price of No. 1 hard spring wheat was \$1.10 per bushel. The price of No. 2 hard spring wheat was \$1.05 per bushel. The price of No. 1 soft spring wheat was \$1.00 per bushel. The price of No. 2 soft spring wheat was \$0.95 per bushel. The price of No. 1 hard fall wheat was \$1.15 per bushel. The price of No. 2 hard fall wheat was \$1.10 per bushel. The price of No. 1 soft fall wheat was \$1.05 per bushel. The price of No. 2 soft fall wheat was \$1.00 per bushel.

WEAVER'S WHEAT REPORT.

Chicago, Sept. 1.—The wheat market has been dull and featureless, practically no outside trade, market entirely local and professional. The September was relatively stronger than the December and the spread between these options narrowed. The market was quiet until about 10 o'clock, when it began to firm up. The price of No. 1 hard winter wheat was \$1.05 per bushel. The price of No. 2 hard winter wheat was \$1.00 per bushel. The price of No. 1 soft winter wheat was \$0.95 per bushel. The price of No. 2 soft winter wheat was \$0.90 per bushel. The price of No. 1 hard spring wheat was \$1.10 per bushel. The price of No. 2 hard spring wheat was \$1.05 per bushel. The price of No. 1 soft spring wheat was \$1.00 per bushel. The price of No. 2 soft spring wheat was \$0.95 per bushel. The price of No. 1 hard fall wheat was \$1.15 per bushel. The price of No. 2 hard fall wheat was \$1.10 per bushel. The price of No. 1 soft fall wheat was \$1.05 per bushel. The price of No. 2 soft fall wheat was \$1.00 per bushel.

LEE REPORTS.

Conditions in Cuba Are Good-- Favors Independent Government.

Chicago, Sept. 1.—A dispatch from the Times-Herald from Washington says: Gen. Fitzhugh Lee has made an elaborate report on prevailing conditions in the territory in Cuba under his jurisdiction, and offers strong grounds for an independent government for the Cubans under an American protectorate.

The war department of the United States, the department of the interior, and the department of the treasury, have all received the report of Gen. Lee, and are all in favor of the independent government of Cuba. The report of Gen. Lee is a very favorable one, and it is expected that the government will take steps to protect her own interests.

TROUBLE IN CHINA.

Germans and Chinese Fight in Kiaow Chou Hinterland.

London, Sept. 1.—A special dispatch received here from Shanghai reports that serious trouble has occurred in the Kiaow Chou Hinterland, between the Germans and Chinese, in which the latter were shot. The German minister to China, Baron von Ketteler, has ordered an ultimatum to the Chinese government, declaring that unless there is security of life and property, and order is maintained in the Hinterland, Germany will take steps to protect her own interests.

CLOSING OF DREYFUS CASE. Chicago, Sept. 1.—Course for the prosecution and defense made closing arguments today in the case of Edward D. Dreyfus, former lawyer and president of the West Park board, who is accused of the embezzlement of \$100,000 of the funds of the board. It was expected that the case would go to the jury late this afternoon.

A Provisional Government Formed in Santo Domingo With Vasquez President.

A LITTLE DISORDER Houses of Former Government Officials Are Stoned at Santo Domingo.

Santo Domingo, Sept. 1.—The revolutionaries have formed the following provisional government:

President, Homeno Vasquez. Minister of the interior, Jose Brache. Minister of war, Ramon Caceres. Minister of foreign affairs, Domingo Forcades. Minister of finance, Samuel Moya. Minister of justice, Jose Manuel. Minister of agriculture, Arturo Zena. Minister of posts and telegraphs, Jose Pro Guzman.

The seat of the provisional government up to the present has been at Moca. There was some disorder here last night. The residences of Amador Pabon, former Minister of War, and of other officials, were stoned. Nobody, however, was injured.

Henriquez has resigned, and it is supposed that the other ministers will do so. A commission, composed of A. Pabon, Maria Cordero and Alvaro Lozano, has been appointed to investigate the French warship Cerberus.

The Dominican warship Cerberus is still on the rocks at Moca and is probably a total loss.

Plata Plata, Santo Domingo, Sept. 1.—The news of the revolution in Santo Domingo, according to reliable sources, is that the revolutionaries are in a position to take the city. It is thought that they will be able to succeed in their attempt. The revolutionaries are in a position to take the city.

 siderable saving to estates that have to
 be probated.

A DANGEROUS TENDENCY.

The tendency to distribute the legis-
 lative power by conferring upon some
 board appointed by the executive the
 power to make rules and fix penalties is
 criticised by Frank Moss, the attorney
 of the famous Mack investigation com-
 mission of New York. In the current
 number of the Forum, Mr. Moss
 points out that the system of criminal
 legislation evolved in New York city
 within the last few years is seriously
 opposed to the traditional American
 ideas in regard to the making of peni-
 tent laws. The ordinary processes of
 enactment of criminal legislation lie in
 the passage by the legislature of laws
 which define crime and provide for its
 punishment, as well as by the passage
 by the executive of ordinances of
 ordinances prohibiting objectionable
 actions. The advantages of these meth-
 ods are publicity through the press,
 careful examination by committees,
 discussion before passage and submis-
 sion to the veto power.

Under the New York city charter the
 city government has executive, legisla-
 tive and administrative departments,
 the making of ordinances being an ap-
 propriate function of the legislative de-
 partment, which is chosen by popular
 vote. But, contrary to all our notions
 of original legislation, certain of the
 administrative departments have been
 given the power by the legislature to
 adopt rules and regulations, the viola-
 tion of which amounts to crime and is
 declared in advance of the enactment
 to be a misdemeanor, punishable by
 fine and imprisonment. For instance,
 the dock board, composed of a lawyer,
 an auctioneer and a liquor dealer, under
 the legislative enactment "shall estab-
 lish and enforce all useful rules, regu-
 lations, * * * and shall fix pen-
 alties for disobeying such rules, * * *
 The violation of, or disobedience to,
 any rule, regulation or order of said
 board of docks shall be a misdemeanor,
 punishable by a fine * * * or by im-
 prisonment * * * or both.

Under the authority conferred by the
 legislature, the board may make rules
 without publicity, without any concur-
 rent action or without submission to
 vote, and may cause the arrest and
 punishment of citizens who never
 heard these rules. Similar powers are
 conferred upon the park board, allow-
 ing that body to bring prosecutions in a
 court which has no jury, and thus de-
 denying the right of citizens to be tried
 in the court of special sessions. The
 New York health board has even
 greater powers. Under the statute au-
 thorizing it to make the sanitary code
 it may "embrace therein all matters
 and subjects to which, and so far as,
 the power and authority of said depart-
 ment of health extends, not limiting

ROYAL BAKING POWDER

ABSOLUTELY PURE
Makes the food more delicious and wholesome

their application to the subject of health
 only. This, as Mr. Moss points out,
 makes it entirely possible for this board
 to adopt resolutions shaped to the needs
 of Tammany in its present fight with
 the Manhattan Elevated railway, which
 may interfere with the operation of the
 railroad, whether it is dangerous to
 health or not.

The use of such powers, of course, de-
 pends upon the disposition of the mem-
 bers of the board thus vested with the
 law-making power. It may be for the
 benefit of the people, exercised with
 discretion and justice. On the other
 hand, it opens the way for flagrant
 abuses by permitting crimes to be de-
 signed and punishments prescribed by
 a board whose members are not elected
 by the people. It is the principle rather
 than any results of its operation to
 which Mr. Moss objects as un-American
 and dangerous. It is well enough to
 allow the administrative departments to
 propose such legislation as is needed.
 But while it is not precluded by the
 legislature to deal with all the minor
 enactments necessary in cities, in de-
 legating this power of auxiliary criminal
 legislation, the Boston Transcript com-
 ments, it should place it upon the peo-
 ple's assemblies rather than upon boards,
 the members of which are often ap-
 pointed as a reward for subservience
 to the will of the dominant political
 party.

NEW FEATURE FOR LADIES.

The Herald takes pleasure in an-
 nouncing that, beginning tomorrow,
 it will publish in each Saturday edition a
 new feature for the ladies that will be
 sure to be appreciated. It is an original
 fashion service from the capitals of
 Europe, centralized in Paris and illus-
 trated by Felix Faurey, of Paris, and
 will be published weekly in The Satur-
 day Herald.

The following dress designers will
 contribute: LaFevriere, Daoust, M. a-
 ttille, Felix, Rouff and others of Paris;
 Drecol, of Vienna; and Hirsch & Co.,
 of Brussels.

The following milliners will con-
 tribute: Violot, Camille-Roger, Hottel-
 Royer, Lenthéric, Marechal, Sauter,
 Esther Meyer, Berthe and Carlier, of
 Paris.

This compilation dictates the styles
 of the civilized world. The retention of
 such a great artist as Felix Faurey for
 this work guarantees a new era of dress
 fashion.

In combination with this great ser-
 vice there will be presented a series of
 illustrations, executed by the celebrated
 artist, Jean Camille, who, in his daily
 work, has been the great modeler of Paris
 —Felix, Rouff, Daoust, LaFevriere,
 Lapin and others—will give us their
 latest conceptions in dresses, cloaks and
 millinery.

No fashion service published in
 America will surpass this one.

A RECORD OF FAILURE.

Will Tammany be on the winning or
 losing side in the next Democratic na-
 tional convention? Will the man who
 receives its support for the presidential
 nomination get it, or will it go to an-
 other? All the signs now point to the
 nomination of Mr. Bryan. Will
 Tammany go to the convention pre-
 pared to vote for his nomination, or will
 it have another candidate of its own for
 the honor? If it supports Bryan and
 he is nominated, it will be the first
 time in thirty years for Tammany to be
 in the winning side in a Democratic
 election.

The Brooklyn Eagle has been looking
 over the record. In 1885 it finds Tam-
 many was for Judge Sanford E. Church
 for the presidency; the Democratic na-
 tional convention nominated Horatio
 Seymour. In 1886 Tammany wanted
 Hendricks; the convention took Tilden.
 In 1887 Tammany was howling for Sam
 Randall, but the convention preferred
 Hancock. In 1888 Hendricks was chosen
 Tammany's choice, but Grover Cleve-
 land was the successful candidate. In
 1892 Tammany "rooted" for David B.
 Hill—unsuccessfully. Three years ago
 Tammany stood against Bryan at
 Chicago, and its opposition only made
 the Western and Southern delegates the
 more resolute in their purpose. Whether
 it sends to the party councils an orator
 like Burke Cockran, or an adroit politi-
 cal wire-puller like William C. Whitney,
 the result is the same. "For over thirty
 years," remarks the Brooklyn contem-
 porary, "Tammany has never gone to a
 national convention supporting a man
 who obtained a presidential nomina-
 tion."

WHAT WILL HE DO?

There are all sorts of stories afloat
 at present at Washington as to the prob-
 able action that the president intends
 to take in the now celebrated case of
 Capt. Carter. One report is that he has
 decided to let the captain off with an
 easy sentence, a fine and dismissal
 from the army, but no imprisonment.
 Another story is to the effect that the
 president intends to make an example
 of the captain of engineers and affirm
 the full sentence that was imposed by
 the court-martial that tried him—dis-
 mission from the army, a fine of \$10,000,
 imprisonment for five years in the
 penitentiary and to be advertised in
 the public prints of his native town as
 a thief and a scoundrel. If guilty, the
 sentence is not too severe and should
 be enforced to the letter. That he is

guilty was proved to the satisfaction
 of the court-martial, the presiding of-
 ficer of which was a man with a thor-
 ough knowledge of the law as well as a
 gallant officer of the army. It is safe to
 assert that if the members of the court
 had any doubt of the guilt of the cap-
 tain, they would have acquitted him or
 have made his sentence less severe.

A New York paper says that Carter
 and his friends are now trying to make
 out that he was not fairly tried and
 that an innocent man was convicted,
 the design being to create the belief
 that Carter was treated unjustly in
 France. This information is made in
 the last brief presented by Carter's
 counsel, Wayne MacVough. Of course,
 we want no Dreyfus case in the United
 States, and if the captain is not guilty,
 he should not be punished at all. If he
 is guilty, he should be punished as he
 deserves, and if the captain is not guilty,
 he should not be punished at all. If he
 is guilty, he should be punished as he
 deserves, and if the captain is not guilty,
 he should not be punished at all.

As both the Columbia and the Shamrock
 will have steel masts in the cup races,
 they will not be even footing so far as
 the risks of carrying them are concerned.
 Steel masts cannot be regarded as out of
 the experimental stage, yet the tempta-
 tion to use them in racing has become in-
 creasing. Their hulls are made of light
 wood, as compared with the solid wood
 on masts, and the less weight allows a
 greater sail area, and the less weight
 in the hull is estimated to be a great
 advantage. The masts are made of steel,
 and the risk appears in the fact that it
 is more likely to damage the hull, or sink it.

Since Mr. Root assumed the secretary-
 ship of war, he has restored to Gen.
 Miles all his functions as commanding
 general, and it is on the advice of Gen.
 Miles that the army has been so largely
 increased. Gen. Miles is a man of great
 ability, and the obviously foolish thing is not
 to be expected from him. That is why the
 army is so much pleased with the new
 deal in the war department. It does
 not profess to know much about war,
 and he is well aware that the general
 command of the army does.

The Hamilton Times wants the public
 that counterfeit Canadian bills are in
 circulation. The counterfeit is a double
 note of the series of 1878, and contains

 is very well made, and the counterfeit
 is very close to the original. The note
 is made of paper, and is very close to
 the original. The note is made of paper,

 "How is your own doing?" asked the
 critic. "In his customary rude health,"
 was the reply.

Harper's Bazar: "Date boarder—Just
 look at that thermometer—In the
 shade and your thermometer called this
 the coolest spot in the mountains.
 What is that?" roared the man with the
 tangled hair.

Cleveland Plain Dealer: "Gilfoyle takes
 a broad and statesmanlike view of na-
 tional affairs," said a friend of his.
 "May I ask what you mean by a broad
 and statesmanlike view?" asked Gilfoyle.
 "Why, er—er—Gilfoyle thinks as I
 think."

Indianapolis Journal: "Your poem,"
 said the supercilious editor, "reminds me
 of a thing I saw in a magazine."
 "You mean that it is going to attract
 much attention?" asked Gilfoyle.
 "No," he answered, "sitting the action
 to the magazine, it will have a chance
 to be a failure, but it will have a chance
 to be a success."

A black and white fashion illustration. On the right, a woman is depicted from the waist up, wearing a long, dark, high-necked dress with a full skirt. The dress features a decorative vertical line down the center and a small pocket on the left side. She is also wearing a large, ornate headpiece with floral and leaf details. To the left of the woman is a smaller, simplified line drawing of the same dress, showing its overall silhouette and high collar.

Duluth Business University and College of Shorthand and Typewriting

Ninth Annual Opening, Monday, Sept. 11.

Courses of Instruction.

Commercial Course—Book-keeping, single and double entry; Commercial Arithmetic, Commercial Law, Grammar and Composition, Business Penmanship, Actual Business Practice, Business Correspondence, Rapid Calculations and Spelling.

Shorthand and Typewriting Course—Stenography, Typewriting, Penmanship, Grammar and Composition, Spelling, Business Correspondence, Business Forms, Mimeographing and Letter Press Copying.

English Course—Arithmetic, Grammar, Reading, Writing, Spelling, Composition and Business Letter Writing.

Penmanship Course—Plain, Rapid Business Writing and Box Marking.

These courses are distinct and separate. The student may take either the Business or Shorthand Course, or combine the two. The English Course may be taken as a preparatory course to either of the others, or the student may select any special branch or branches he wishes from one or more of the courses.

Private Instruction.

Those who cannot conveniently attend all day sessions will be permitted to attend during morning sessions, or will be given private lessons of one hour each at very moderate rates.

About Securing Employment.

No young person of fair educational attainments, average ability, good character and industry, who completes a course at this institution need long be out of suitable remunerative employment if he desires it, as there is, even in this day of crowded vocations and keen competition, abundant work for every young person who is able to do exceptionally well, that which is required to be done. Some idea may be formed of how precisely our courses meet the requirements of the up-to-date business man from the fact that during the past year seventy-four good clerical positions were tendered to and accepted by students upon their graduating from this school, and in not a single case was a student found incompetent to fill the position he was recommended for.

PARTIAL VIEW OF TYPEWRITING DEPARTMENT.

The college office will be open from 8 to 12 each morning, from 1 to 6 each afternoon, and from 7 to 8 each evening next week. All intending to enroll at this opening are requested to call during the week and make final arrangements.

Monday, September 11, a Good Day to Begin.

Those who intend taking a course should, if possible, begin on Monday, September 11, as by so doing the student may be ready for the first session of actual business which opens January next, and complete the course early next spring, the best possible date to secure a good clerical position. During the past eight years the demand for graduates of this institution throughout the months of April and May has far exceeded its supply.

Board and Rooms Desired

Convenient to the college at moderate rates to accommodate some thirty or forty young people who are intending to enroll as students between Sept. 11 and Oct. 1. Call at the college office and leave address, rates, etc.

Visitors Invited.

During all of next week our rooms shall be open for the reception of visitors when we shall be pleased to have any who are interested in our work call and inspect our apartments.

A Large Attendance Assured.

Our Ninth Annual Opening Promises to be by Far the Largest in the History of the College.

It is, indeed, gratifying to know that our persistent efforts to establish and maintain in this city a business training school that should have no superior in America, are so far meeting with success that in addition to the unusually large number of applications being received from young people of this city, we are also receiving applications and enrolling students for our ninth annual opening from the Dakotas, Montana, Iowa, Michigan and from all of Duluth's surrounding towns and villages, which will undoubtedly make the enrollment at our ninth annual opening almost double that of any previous year.

We attribute the widespread popularity of our college, to the practical nature of the courses adopted by it, the energetic and proficient teachers employed by it, its square and fair dealings with its patrons, and to its prompt and business-like management.

The height of our ambition in future, as in the past, shall be to keep our college fully abreast of the times and in unison with the enterprise, vim and hustle of the citizens of this progressive city.

Night School

Will begin on Monday evening, Oct. 3, and will offer the same facilities for obtaining a commercial, stenographic or English course as are found in the day school. It will be in session six months. We are desirous of having students enter at the opening and thus be enabled to complete the course pursued at the close of the session. Our special offer to all who begin the first evening is \$34.00 for the full six months' course, instead of \$50.00, our regular price.

LARGE MONTH'S BUSINESS.

Customs Office Report Shows a Great Volume.

The month of August in the United States customs office was a good big one, and several of the monthly records of the year sustained damage when the figures of last month were placed on the books.

The shipments of wheat for the month, as shown by the record of the customs office, was 1,241,811 bushels, oats, 473,737; barley, 40,000; flax, 30,390; flour, 24,106 barrels; feed, 794 tons; ore, 512,848 tons; lath, 2,990,000; shingles, 14,400,000; lumber, 65,417,759 feet; copper, 402 tons; merchandise, 4528 tons.

The receipts were: Coal, 200,448 tons; logs, 12,200,000 feet; sugar, 5465 barrels; salt, 15,485 barrels; vinegar, 300 barrels; liquor, 380 barrels; stone, 10,680 tons; cement, 2425 tons; manufactured iron, 380 tons; fresh fish, 27,418 pounds; salt fish, 741 barrels; merchandise, 11,338 tons.

NORTH LAND'S LIST.

Nearly Two Hundred Went Out This Afternoon.

The North Land's outbound bookings today show a list of nearly 200. Among local people who are making the trip are: Mrs. L. V. Armstrong, to Buffalo; Miss N. Mitchell, Mrs. C. M. Ross and Mrs. L. T. Ross, to the Soo; Mr. and Mrs. Walter K. Adams and Mr. and Mrs. George A. Smith, to West Superior, to the Soo.

Much adverse criticism of the police department has been indulged in on account of the lack of a dock to land the ship when the North Land came in last evening. One of the huckmen on the pier which is placed around the dock to keep it from being crowded with rigs, and when a special officer employed by the Northern Steamship company interfered, the huckman used the butt of his whip on him.

The inbound Duluth bookings last night were:

Will Soon Get the Cash.

Major Trudsen has been notified by telegram that the cashier of the New First National bank of Columbus is now in New York, and the city may expect to receive the cash for the \$200,000 worth of refunding bonds in a few days.

Heavy Land Office Receipts.

The local land office receipts for the month of August were unusually heavy, aggregating \$11,379. During the month the cash entries included 3628 acres under the homestead act 6636 acres were filed on, and the final proofs made up a total of 2552 acres.

The Congregation Tifaris Israli and the Chavri Kadishu

Will hold their service meeting for Rosh Hashana on the 5th and 6th of September, at 10 o'clock, at the 11th of September, at Brown's hall, 10 East Superior street.

THE ARMORY MEETING.

Program of Music to Be Given at Dr. Thomas' Service.

Tomorrow evening Dr. H. W. Thomas, of Chicago, will preach at the Armory. A large number of the people of the city have interested themselves in securing Dr. Thomas to deliver this sermon and a large attendance is expected. Dr. Thomas is the pastor of the People's church in Chicago, and holds meetings every Sunday evening in the old McVicker's building there, and has crowded houses every evening. He is very popular in Chicago. A fine musical program has been arranged for the meeting tomorrow evening. Plans for the orchestra will play and the following will be the program:

"The Pilgrim's Song of Hope".....Soloist, "Sanctus" from "St. Cecilia Mass".....Quintet, "Plauton's Orchestra".....Quintet, Hymn by Congregation.....Soloist, "Adagio" from "Sonata Pathetique".....Soloist, "Requiem" from "Requiem".....Soprano solo, "Miss Hall".....Hymn by Congregation.....Postlude "Pavane" from the symphony "Lorena".....Plauton's Orchestra, F. E. Chaffee will lead the singing.

Stylish Millinery.

WILL OPEN MONDAY

Conference of Corrections and Charities to Begin In the Evening.

THE FULL PROGRAM

Sessions Will Be Held In the First Methodist Church.

Next Monday evening the state conference of charities and corrections will open a three days' session at the First Methodist church in this city, and a good many people are looking forward with interest to the meetings. There are no more interesting branches of sociology to the general public than those to be treated by the papers included in the program for the conference, and this should ensure a large and generous attendance of the people of this part of the lake. The papers are all in the hands of people who are specialists in the lines they have selected to treat, and this makes it certain that they will be able and entertainingly handled. A feature of the meetings will be the discussions that will follow each paper as those who took part in them will be men who will have valuable ideas to impart, and the result will be a symposium of thought that will be of direct benefit to society at large and to those who attend the meetings. The meetings are open to the public. Special invitations have been sent out to many, but of course it was impossible to cover the field in this manner. The fact that one does not receive an invitation is not to be taken as meaning that one is not welcome. The success of these meetings depends upon the attendance largely, hence those who have the matter in charge are anxious to see large audiences at each session. The program for the three days is as follows:

You neglect your Teeth mainly for TWO REASONS:

You are "afraid" of being hurt. And you are "afraid" of the expense.

Do not stay away from this office because of these reasons. We can and do surprise you in both. Come before "Mr. Tooth Ache" or "Mr. Swell Face" compels you to go. We use the latest improved methods and appliances which make the extraction of teeth and all operations in filling and crown and bridge-work absolutely painless.

The dentist who tortures you in this age by the old-fashioned antiquated methods is two years behind the times and unworthy of patronage. No matter how bad your teeth may be or how great a number, we extract them absolutely without pain. We are in the city for extracting teeth when our best rubber or metal plate is required.

IN SPORTING CIRCLES

Duluth and Superior Ball Clubs Make Peace and Will Play a Series of Six Games, Beginning Here Today.

AT SUPERIOR TOMORROW

The most interesting development of the week in sporting circles is the peace protocol signed by the managers of the Duluth and Superior ball clubs, and the arranging of a series of six games to decide the championship of the head of the lakes.

This is the best news in a sporting line that has happened for many months. After the miserable exhibition put up by Superior in the last game over here, the fans were thoroughly disgusted, and were unanimous in the opinion that the team should not play again in the state of affairs. The Superior team is the only team that has been here this season that can be considered in the same class with Duluth and for that reason and no other, the fans have collected their prejudices against Superior to the point, and are anxious to see the championship battle fought out, providing it can be accomplished without any resorting to disgraceful tactics by Superior.

The agreement which has been signed between the two clubs for the coming series is all that the sports could wish for. The umpire is given full power to play out the game if the occasion requires, and there will be ample police protection guaranteed to keep all persons of the kind who do not belong there out.

The first of the head of the lakes championship series between Duluth and Superior will be called at the Fair grounds here today. The Superior players will be Mullaney for Superior and Cox for Duluth. Superior has been greatly strengthened since the last game here. Their new man with red hair who replaces Page at short, is said to be a wonder, and Charley Schwartz, the old Superior player who has been in the Western league all season will play today for the visitors. With these two changes, the team will be a different one from the one that was defeated in the last game.

There is a make-up of the two teams, and the fans can compare the men and players. The lineup for the game is as follows:

DULUTH. Catcher, Mullaney; First base, Cox; Second base, Foster; Third base, Sheppard; Shortstop, Taylor; Left field, Mullaney; Center field, Mullaney; Right field, Mullaney.

SUPERIOR. Catcher, Mullaney; First base, Cox; Second base, Foster; Third base, Sheppard; Shortstop, Taylor; Left field, Mullaney; Center field, Mullaney; Right field, Mullaney.

It is the first time in years that several teams have come to Duluth and defeated the home team. The movement, started by the Duluth club, has been successful. The plan is to meet at Chicago and start for the coast in a body not later than Oct. 13.

The value of veteran players has declined so much that there is no market for them. Many seasons ago, when they were in the prime of their careers, they were paid big salaries. Now they are paid nothing. The check a player draws monthly does not represent his salary. It is only a loan on his salary. The value of a player is now determined by his ability to win. The check a player draws monthly does not represent his salary. It is only a loan on his salary. The value of a player is now determined by his ability to win.

A well known physician of Brooklyn has the following suggestions for pitchers: Rule 1—Pitch only on Monday, do not pitch again until Friday, and again the following Wednesday. Rule 2—Do not practice pitching the day after a game, either in the morning or in the afternoon. Rule 3—Practice only on the day of the game. Most pitchers practice too much. Rule 4—Keep the general health good by walking, bicycling and bathing. Exercise,

but avoid dumbbells. Rule 5—The pitcher should be the same as for a boxer in training. These rules observed, a pitcher will be good from year to year, and will never have a "glass arm."

Two good pitchers could do the work of a club in this way. Let a pitcher pitch five innings tomorrow and a four and so on. They could go on indefinitely. The pitcher who pitches five innings without injury, it is the last four innings, when the strain is the heaviest.

The date of the Duluth-Palmer-Torrey-McGovern contest has been postponed until Friday, Sept. 15, an unlucky day for one of the other hand the superior pitcher acted as if he didn't consider the little Brooklyn team worth much trouble. He has been evidently changed his mind, and has been pitching with a different attitude. He is now pitching with a different attitude. He is now pitching with a different attitude.

OF DULUTH'S NEIGHBORS

TOWER TOPICS.

Tower, Sept. 2.—(Special to The Herald.)—One of the saddest deaths that has occurred in Tower for some time was that of Mrs. E. L. Lariviere on Friday morning, Aug. 26. Mrs. Lariviere had been sick for some time, although only a few hours before her death was her condition considered dangerous. She leaves a husband and several children. The funeral was held from St. Martin's Catholic church of which she was a member, the Very Rev. Father Doherty officiating.

During the past week C. G. Murray, Sr., communicated one of the most important business deals that has been concluded for some time. The deal is in the form of an option for a large tract of land in the town of Chisholm, Minn., and is for six months and provides for active exploration of the property during that time. Several years ago Mr. Murray did considerable work on this property and met with very gratifying results. As a result he has taken from this property showing that indicates that there is a great deal of iron ore in the tract. It is considered here to be one of the best properties on the Vermilion range and is a job that of J. J. Hill on the south, where John Underwood located a large tract of iron ore. It is believed that a shipper would be interested here.

SWEEPING CHANGE

Method of Timber Operations on Chippewa Reservations to Be Reformed.

THE RED CLIFF PLAN

Favored By Interior Department as Most Beneficial to the Indians.

Washington, Sept. 4.—The officials of the interior department are giving information which they regard as of special value as tending to assist in formulating plans for a reorganization of affairs connected with the disposition of timber on the Chippewa reservation of Wisconsin.

The officials do not disguise the fact that they are greatly dissatisfied with the situation in Minnesota, and timbermen and operators generally in the state will be expected to know that from matters now under consideration there is likely to be evolved a sweeping change in the system.

An official of the department said Saturday that while the report of the investigation would not be starting until the fall, the department is already starting to show that the operations with dead-end timber have been practically a failure. In considering ways and means for improving these operations in the future it is regarded by the officials as probable that some of the changes in the interior department will recommend to Congress the entire abandonment of the present system and the adoption of methods of timber disposal along the lines of the Red Cliff plan.

Two things are necessary to carry out these plans. First, the first must be adequate streams for running out the logs, and for the second, there must be sufficient accommodations in order to handle the lumber out of the reservations to the market.

It is suggested that the recommendations of Secretary Hittelman will be the basis of the plan.

At the Chippewa reservation have adequate streams for log driving, and the Red Cliff plan for these sections as in the desired railroad facilities, both the proposals will require legislation by Congress, not only to abolish the present system on the Chippewa reservation, but to give the department authority to grant business licenses to private parties for the use of the reservation.

At the same time, the plan will be to give the department authority to grant business licenses to private parties for the use of the reservation.

THE GOOD INDIANS

Inspector McLaughlin Says There Are Many Honest and Sober Redskins.

THE TURNING POINT

Reached in the Indians' History—Days of Wars Have Passed.

From The Herald Washington Bureau.

Washington, Sept. 4.—(Special to The Herald.)—John McLaughlin is at present inspector in the Indian service. A few years ago McLaughlin was the agent for the Sioux Indians at Standing Rock, North Dakota. It was under his supervision that Sitting Bull was captured. On account of the sensational story which caused consternation among the Indian rights people in the East and a little concern to those in the West, that he desired that this Indian be brought to book for his many depredations during his stay in North Dakota.

McLaughlin was deposed as Indian agent at Standing Rock, and as he has heretofore been stated, is now Indian inspector at a pretty fair salary.

He is one of the best known men in the Indian service in the employ of the government at the present time.

Inspector McLaughlin has recently arrived in Washington.

He is not dissatisfied with his service in the Indian service, to say that all Indians are bad is not making any sense.

My experience has brought me in contact with many of the best of the Indian race, and I do not think it would be possible to have another uprising. Of course there may be the other with a few more outbreaks, but they will not be serious.

The Indian is not unreasonable, as many suppose. He is as intelligent as the white man, and he is as capable of being handled when he is made to understand, but he has been fooled and deceived so many times that he is suspicious.

Throughout the country the tribes are generally prosperous and contented. They are not making any more war, and they are developing slowly and steadily in the line of progress. They are acquiring the arts of civilization, and their children are attending the schools.

The Indian has now reached the turning point in his history, and he holds his own time of day.

Washington, Sept. 4.—The quarter-master general of the Indian service received the following dispatch from Nagasaki, Japan, dated Saturday, September 3, 1909.

The ship, the "Morgan City," (transport) struck, made water, and was wrecked on the coast of Japan.

DEATH AT THE CROSSING.

Three Men Killed in a Grade Crossing Collision.

Cedar Grove, Wis., Sept. 4.—Three men were instantly killed and another seriously injured by the northbound limited train on the Chicago & North-western railroad last night.

The dead were August Scherk, 45 years, butcher, and agent of the Wisconsin Telephone company; married.

Nicholas Bass, 39 years, blacksmith; single.

William Hille, 69 years, tinsmith; married.

Injured, Albert Icke, 40 years, internally injured; will recover.

The men were riding in a buggy, Cedar Grove, came thundering along at a lively rate, crashing into the vehicle and killing the horses and grinding the buggy into splinters.

The men had been returning home when the accident occurred. It is thought the approach of the train was not heard.

The three men were well known business men of Sheboygan county.

NO CHANGE IN POLICY

**School Board Will Follow
Former Rule In Respect
to Vaccination.**

RESTORATION ASKED

**Janitors and Engineers Want
Wages Restored--Will
Mount the Gun.**

The meeting of the board of education Saturday night was short, all the business in hand being finished by 9 o'clock. The first matter to come up was that of vaccination of school children, which was brought up through a communication from Health Officer Webster. Director Cobb offered a resolution for action on the matter, but it received no second, the board believing that it would be better to let the matter rest on the table. It is now in force requiring all pupils to bring a certificate of vaccination before admission to the schools. (It. C. Mitchell was present, and he endorsed the action of the board on the matter. The janitors and engineers employed by the board put in a request for a restoration of wages to the scale in effect before the retrenchment battle was on. The communication was referred. The resignation of D. J. McLean, as janitor, was accepted, and the following teachers' resignations were accepted: Miss Mary L. Foster, Miss Margaret Grant, Miss Emily Fiske, Miss Bertha Stahl, Miss Jeanette C. Walsh, Miss Eleanor Granly, Miss Emily Malady, A. V. Jones and E. C. Baldwin.

Turner & Co., of this city, offered to build a granite monument for the Spanish gun on the campus and to mount the gun upon it. T. W. Hugg, who was present, said that the board would accept mounting the gun on granite, as it would be better to mount it on a gun carriage. A motion to appropriate \$125 for the work if necessary was passed. Director Webster is to see what can be done about getting a carriage.

A. J. Miller reported as auditor of the books of the treasurer and the board accepted the report as a whole, adopting the auditor's suggestion that the treasurer be authorized to change off the books a difference of \$18.75 between the bank and the bank balance, caused by the purchase of two drafts on a bank that failed before the drafts were collected. The account has been carried for a long time.

Treasurer LeTourneau reported having received the district auditor's report from the county, amounting to \$22,917.75, divided as follows: General fund, \$17,966.57; sinking fund, \$7,494.95; building fund, \$6,450.00. After reporting some smaller receipts from various sources he reported that the cash on hand is \$390,500.01, including \$12,333.52 in deposit. He also reported that the auditor asked if the county auditor had deducted from the appropriation the district's share of the interest in the banks, and Treasurer LeTourneau said that he believed that he had.

The American Exchange bank and the First National bank offered 2 per cent for the district's money if they are made depositories, and the Duluth Trust company offered 2 1/2 per cent for an amount not in excess of \$100,000 left on deposit for at least six months. The offers were referred.

Leon Comeau was given a contract for furnishing kindling and hauling ash away from the school buildings. E. S. Wheeler, county superintendent, and Dr. J. M. Robinson were elected members of the board of examiners. The Duluth Humane society was granted the use of the assembly hall for Sept. 29, when the annual meeting will be held and J. Adam Rode will give an address. The "Ladies' Literature" class was allowed to give coloring to those for one night in January and one night in March for two lectures on dress art by Louisa Tait, of Chicago. The Pioneer Fuel company withdrew their bids for fuel.

NOTHING AS YET

**Rumors as to Starting Up
of Industries Are All
Premature.**

All sorts of rumors are about us to the reopening of the car works at West Duluth, the steel plant at West Superior, the Iron plant and other industries. And every little circumstance that can be utilized to give coloring to these rumors is being used by the persons who have an idea that something big is going to happen. Recently a man who has had considerable prominence in connection with nearly all the industrial movements that have amounted to anything in the city was showing some property to an out-of-town man, and immediately the rumor was started that something big was to happen, and that these men were buying up all the property they could get. A short time ago Mr. Thomas, of the Blast Furnace company, purchased from the old car works property some slag or refuse which he could use in connection with fixing up the blast furnace, and cars were out to work moving it. This all but started the car works at once.

As a matter of fact, negotiations are and have been for some time under way which may result in the opening of the car works and possibly some other industries in Duluth. At the present time, however, they are in nothing like a perfected condition and may all come to naught. To publish every rumor that goes about can do no good and may do much harm, for if the car works should not be opened it were far better if anticipations had never been raised. When matters have assumed definite form the exact facts will be announced to the public, and until then it will be better to give very little attention to the rumors which may start from time to time.

BLANKETS AND COMFORTABLES HAVE FIRST CALL!

Too early for these goods, do you say? Not a bit of it. Cool, snappy days will be here almost before you are aware of it and then you'll pay more for these same goods unless, perchance, an exceptional buying opportunity comes to us, which seems hardly likely in these days of advances. These goods were bought long before fly time reached us, and when makers could be induced to part with large lots at considerably less than today. But that's another story. Here are the items and prices—judge for yourself and they are here for you to handle and compare at your pleasure, but do not put the coming off too long, for the very ones you expect to buy might move first.

PAPERS DISCUSSED

Interesting Talks on Various Topics in Charities and Corrections Conference.

CARE OF THE INSANE

Members of Iowa Board Differ From Most of the Speakers.

(Continued from Page 2.)
This morning's session of the state conference of corrections and charities opened at 9 o'clock in the lecture room of the First Methodist church. The number of visitors from outside the city was between sixty and seventy and they included people from all parts of the state and from other states as well. Among them was Ex-Gov. William Larrabee of Iowa. He is a member of the state board of control of that state and the other two members of the board, Judge Kinney and Hon. John Coville, were also present. Judge Larrabee, a member of the board of control of that state was also present.

While the attendance from outside the city was all and more than could be asked, that from the city was disappointingly small and made the people who have worked for several months for the purpose of this meeting feel thoroughly chagrined. Not one of the city or county officials, except Sheriff Sargent, who has been one of the most indefatigable workers for the conference, was present, and yet the conference is particularly intended for the very people who have the handling of the criminal classes, the insane, etc.

The first paper of the morning was by Hon. William B. Douglas, attorney general of the state and was on the topic "Should Marriage be Prohibited Among Defectives and Delinquents?"

MARRIAGE AMONG DEFECTIVES.
The fact that the government has assumed a guardianship over the defective and criminal classes, has in a large degree removed from the law and the courts the right to decide upon the propriety of a marriage between two persons who are defective or delinquent. The subject is a very important one and one which has been discussed in many of the papers and magazines which are being read by the people. The subject is a very important one and one which has been discussed in many of the papers and magazines which are being read by the people.

It is interesting to note that the members of the Iowa board of control, who are the only ones of their kind in the country, differ from most of the speakers in their opinion. They believe that marriage should be prohibited between two persons who are defective or delinquent. Fall Hat Opening...

The Knox Hat--Fall 1899 The Knox Derby which is now on sale differs from other styles mainly in the brims, which are cut wider than the average. The hat illustrated is 5 1/2x2, which gives 1-8 to 1-4 inch more than the majority of the styles already issued. In this we are inclined to think the Knox style will carry an individuality that will be a good advertisement for the maker. The crown is rather full, the curl a 5-8 open rape, the brim medium set at sides and rather flat from the rear. The band is 12 line, binding 12 line reversed--both coarse ribbed. The Knox hat is an excellent winter style, well proportioned, and will be a favorite. Colors--black, sealbrown, laurel, walnut and pearls.

The Burrows Hats.....

In Knox, Dunlaps, Youmans, Millers and many other leading makers' styles, which for quality is the best that \$3.50 will buy and equal to many \$5 hats.

See Hats in Front Show Window.

Claims Contract Was Infringed.

The Hatfield, Hale & Morgan company this morning began a suit in district court against Wheelock & Dyer to recover \$5000 damages for an alleged infringement of a contract under which it is claimed the defendants agreed to furnish the plaintiffs all of the No. 4 boards and the best bottom feet of No. 2 boards for lumber companies during the season of 1899. It is claimed that the mill turned out bottom feet of No. 4 boards and the suit for the value of \$5000 damages is the result.

Colored Jubilee Performance County Board Meeting This at Armory Wound Up In a Big Row.

The colored jubilee performance and cake walk in the Armory last evening, came to an abrupt ending with a genuine old-time G-string meeting finish, but for the timely appearance of Police Sergeant Dowdell and the repeated threats of the janitor to call out the National Guard, the row might have been a serious one. For nearly an hour had the colored people been dancing and singing, and the janitor had been carrying out the Armory, and the scene of the row would have been the scene of one of the most serious disturbances in the city.

The trouble arose, it is said, over the efforts of a certain Mr. Wallace and his "silent partner," Mr. Lane, to appropriate the proceeds of the performance to their own personal account, and their repeated efforts to shut out the performers who were clamoring for their money, excepted of the janitor, was given. It was for the best cake walk ever seen in Duluth and everything came to a sudden stop on the big and small bills. Several of the colored people, including Messrs. Butler and Vachon, professional minstrels, Minneapolis, under promise of \$2000, there are so many different stories of how the row came up, that it would require a court of inquiry to find out whether it started inside the Armory or outside. It is claimed that when the performers were brought up here from Minneapolis, under promise of \$2000, there are so many different stories of how the row came up, that it would require a court of inquiry to find out whether it started inside the Armory or outside. TWO MEN KILLED

Bayfield & Western Logging Train Has a Bad Smash-Up This Morning.

TRAIN HAD BROKEN

Sections Crashed Together and Two Men Crushed Between the Logs.

A Bayfield & Western railroad train had a terrible smashup on the Northern Pacific road near the Amnicon river this morning at 2 o'clock, and two men were killed and several more or less injured. This is the logging railroad which Senator Sablin, of Stillwater, operates. It connects with the Northern Pacific at Iron River, Wis., and its trains carry logs from there to Superior over the latter.

This morning, as a train loaded with logs was coming toward Superior, it was struck by a section of the road which had broken and the train was in three parts. The engineer stopped the forward part, and the two wild sections, which were running at a good speed, crashed into it. The result was appalling. A number of wooden men were crushed to death, and the poor fellows who were between them were crushed into jelly.

In the caboose in the rear several people were riding, and that they were not all killed was more the result of good luck than anything else. Two logs crashed through the end of the caboose and narrowly escaped those who were inside.

The two men killed were Morris (Galt) of Minneapolis, and Thomas Gordon, residence unknown. William McRae, a brakeman on the train, was injured and was brought to Duluth this morning and is at St. Mary's hospital. He is injured about the head and his leg is broken, but he is not in a dangerous condition. His home is at Alpena, Mich.

A Mr. Babby, of Iron River, who was in the accident, came in on a switch engine early this morning. He walked six miles from the scene of the accident and caught the engine into Duluth. He was bruised and sore and walked painfully, and was smeared with blood from the bodies of the dead men whom he used in removing the lumbering logs to remove from the wreck. He said that the condition was a horrible one, after the wreckage. The damage was such it was difficult to make out the location of the men who were caught among the logs, and he was of the opinion that three or more had been killed. Later reports, however, put the number of killed at two.

Mr. Babby says he was in the caboose when the accident occurred. He was about to jump, but the conductor caught him and held him. He then fell over to one side, feeling that the caboose was probably saved his life, for at that instant the logs crashed through the car. Afterward he went outside and helped in the work of rescuing the more unfortunate.

They found one fellow with his foot pinned down and he had his knife out and was hacking away at it, trying to cut a chunk of it off so that he could free himself. They tried him out and he remarked, pointing to the pile of logs, "There's another in there. He's dead." Two bodies were recovered when Mr. Babby led them away in horrible shape.

WITNESS NOT THERE.

No One Appears Against Thomas Madden and Others.

In the municipal court this morning the complaining witnesses in the assault case against Tom Madden, Frank Adams and Frank Faulkner failed to appear and the case was dismissed by Judge Gearhart. The complaining witnesses, after securing out the warrants for the arrest of Madden, Adams and Faulkner on Friday morning last, left town at 4 o'clock and he confident they would be back in court at that time.

The police said that the reason they did not make the arrest was that they were unable to locate Adams and Faulkner. They say that Faulkner was going into court, and if they had arrested him sooner it would have prevented their setting.

FOR SALE.

Houses and lots, which have been owned by the late John J. Sullivan, will be sold at a low price. Call on Stryker, Manley & Buck, Torrey Bldg., first floor.

PATTERSON WILL COME.

Will Be Here For Closing Games of the Season.

Patterson will be back to pitch the two closing games for Duluth against Superior. Word was received from Patterson this morning saying that he would be here for the games Saturday and Sunday, Sept. 16 and 17. Yesterday Patterson pitched a 16-inning game against Indianapolis, the heaviest hitting team of the Western league, and won the game 3 to 2. The heavy hitting Hoosiers got eight straight hits off Patterson in nine innings, and for the last seven innings of the sixteen he shut them out without a hit.

Superior is also bracing for the ending of the series. Hart, who has been pitching the series, has been pitching for St. Paul, will join the Superior team and play his old position at third, and Schwartz, of the Eastern league, will fill one of the infield positions.

SCHULTZ CONCERT TURNER HALL Tomorrow Evening.

Struck By a Car.

Ben Grantly, of 2829 Huron street, fell in front of street car 127 last evening and was severely injured. The accident occurred at the corner of Superior street and Eighth avenue west. The man is said to have been slightly under the influence of the Labor day celebration. The motorman did all he could to bring the car to a standstill, but the fender he did not regain consciousness till this morning. Today he is resting easily at St. Mary's hospital and there is little doubt but that he will recover. Had it not been for the fender the man would probably have been killed.

Tomorrow's Store News!

Will interest hundreds of prudent women because of the many excellent buying advantages.

Blankets and Comfortables

Which we told you of yesterday are selling very steadily, in fact more of them being sold than you'd imagine for this time of the year. But then, a dollar or two is worth saving, and especially where you know that goods can be absolutely depended upon. The prices and goods were quoted in last evening's Herald, if you have mislaid it you can find a copy here.

Linens and Domestic

Are keeping company with the heavier goods. The ready buying should be ample proof that careful women consider them excellent and are buying in plenty--tis a splendid time to stock up. Hotel, restaurant and boarding-housekeepers should bear this in mind.

New Golf Capes--New Tailor-made Suits and Jackets

Will be shown tomorrow in goodly numbers, and the Dress Goods items will be important. Taken all in all a visit to the store tomorrow will be interesting. Come.

The newly appointed board of managers of the Y. M. C. A. will meet this evening and organize.

Frederick and Sherman Nott this morning began a suit in district court against the Y. M. C. A. to recover \$5000 damages for an alleged infringement of a contract under which it is claimed the defendants agreed to furnish the plaintiffs all of the No. 4 boards and the best bottom feet of No. 2 boards for lumber companies during the season of 1899. It is claimed that the mill turned out bottom feet of No. 4 boards and the suit for the value of \$5000 damages is the result.

The board of fire commissioners has received sealed bids for 120 feet of hose for the re-opening of No. 4 fire hall. The bids are from the Chicago Fire Hose company, the Bowers Rubber company, of St. Paul, and to Carl E. Johnson, of St. Paul, and C. Callahan & Co., of Duluth.

Labor day was too much of a good thing for some people yesterday, and as a result T. Fleming, P. Johnson and J. McMullen are now members of the St. Louis County Amusement Association of Rock Pulverizers. It cost R. Wentworth just \$10 to keep out of this select organization, and W. Shirley had no money, but a good excuse and Judge Gearhart allowed him to go under a suspended sentence.

HEAD CRUSHED.

Pile Driver Hits James Murphy Killing Him Instantly --It Toppled Over.

James Murphy, a laborer, was struck on the head by a pile driver this morning and instantly killed. The accident occurred about 11 o'clock out at Scott & Holston's lumber mill at Twenty-fourth avenue west. Murphy was employed on the pile driving machine of Lee Palmer, and at the time of the accident was engaged in driving piles for the foundation of an addition to Scott & Holston's mill. Without a moment's warning the machine toppled over, striking Murphy on the head and pinning him beneath some heavy timbers. At first it was thought that his neck was broken, but later examination showed that death was caused by a fracture of the skull. Dr. G. W. Deane was summoned but the man died almost the moment the driver struck him.

Murphy was a single man, 35 years of age, and is said to have lived at 261 St. Croix avenue. Coroner Eklund had the remains taken to Durkan's morgue, but at noon he had not decided whether an inquest would be necessary or not.

Mill Is Running.

The Clark & Jackson Lumber company's mill at New Duluth started up today, and it will be running full force tonight. This afternoon the strikers were paid off and discharged, and the mill is running without their aid, new men having been secured. The men asked for an advance of 25 cents per day, from \$2 to \$2.25, and this was refused.

Sault Ste. Marie, Mich., Sept. 6.—The steamer Houghton, which has been lying across the channel at the sailors' encampment, and effectively blocks the passage of all lake Superior commerce. All downbound boats are being advised to wait here until some means have been devised with the wreck and it is said that it will take several days to raise the steamer.

The Houghton, which belongs to the Houghton & Co. of Duluth, was loaded down with lumber and other cargo. It was driven ashore by a heavy gale on Friday night. The vessel was damaged and the cargo was scattered all over the beach. The Houghton is a large steamer and its presence across the channel is a serious obstacle to the lake trade.
